Edinburgh Postnatal Depression Scale (EPDS)

The EPDS was developed for screening postpartum women in outpatient, home visiting settings, or at the 6-8 week postpartum examination. It has been utilized among numerous populations and has been translated into several languages. The EPDS consists of 10 questions. The test can usually be completed in less than 5 minutes. Responses are scored 0, 1, 2, or 3 according to the severity of the symptoms. Items marked with an asterisk (*) are reverse scored (i.e., 3, 2, 1, and 0). The total scores are determined by adding together the scores for each of the 10 items. Validation studies have utilized various threshold scores in determining which women were positive and in need of referral. Any woman scoring higher than 9 should be asked follow up questions to further assess mood and safety; women scoring above 12 or indicating suicidal thoughts by answering 1 or higher on #10 are considered to have positive screens and need a complete assessment, referral, and possible immediate intervention. Even if a woman scores 9 or less, if the clinician feels she is suffering from depression, an appropriate referral should be made. The EPDS is only a screening tool. It does not diagnose depression- that is done by an appropriately licensed health care professional.

Instructions for Users:
1) The mother is asked to underline 1 of 4 possible responses that comes the closest to how she has been feeling the previous 7 days.
2) All 10 items must be completed
3) Care should be taken to avoid the possibility of the mother discussing her answers with others.
4) The mother should complete the scale herself, unless she has limited English or has difficulty with reading.

As you have recently had a baby, we would like to know how you are feeling. Please **UNDERLINE** the answer which best describes how you have felt **in the past 7 days**, not just how you feel today.

Here is an example, already completed.

1. I have felt happy:
   - Yes, all the time
   - Yes, most of the time
   - No, not very often
   - No, not at all
   This would mean: “I have felt happy most of the time” during the past week. Please complete the other questions the same way.
